

1st NATIONAL CONFERENCE ON RECENT ADVANCES IN FUNCTIONAL FOODS

5-6th October, 2016

Let's Make Educated Choices of Foods for Well-Being

More than 250 diseases are being caused by the foods. According to an estimate, about 86% of the deaths in low socio-economic sector of Pakistan are due to Cardiac Failure. Currently, Pakistan is on the 6th position in terms of having diabetic patients. Metabolic diseases have a strong correlation with foods. Functional Foods can prevent body from numerous health ailments such as, cardiovascular diseases, different types of cancers, breakdown of vital biochemical compounds, diabetes, gastrointestinal problems and accelerated ageing etc. Food industry of Pakistan is mainly focusing on the development of conventional Foods. The great demand exists for Functional Foods in Pakistan.
