

**ONLINE
SESSION**

Who shall attend?

Veterinarians
Medical Physicians
Zoologists
Environmental Scientist
Molecular Biologists
Epidemiologist
Agriculture Experts
Students from all aspects
of science

DATE: 25-26 NOV, 2020

What is One Health?

One Health is a collaborative, multisectoral, and transdisciplinary approach. Recognizing the interconnections among people, animals, plants and shared environment. Recent global disease events like the outbreaks of SARS-COV-2, Ebola, MERS and Zika, have underpinned the increasing impact of zoonotic diseases on human and animals health. This conference will bring people from different disciplines to combine their efforts to cope with the emerging challenges to human & animal health.
