Organizes the Competition of Poster, Essay writing and Film on the occasion of National DNA Day
The following three categories open for the student competition and are given below

Research Innovative Idea (Poster Competition)

PG Students are encourage to present a new and innovation research idea using molecular biology resources for solving our countries existing problems. I should be presented in the Poster format including;

Title, Introduction, Objective, Thorough literature reviews, Research methods and Conclusion/Outcome

- It can be in text, or diagrammatic flow, or combination of both.
- Participation in the poster competition is **FREE!**
- Participants are limited to one submission per person
- The certificates will be awarded to three highly competitive ideas.
- Submit a pdf or jpg of your one page poster in the size of 1,080 x 1,920px. Competition entrants should note the following:
- Posters must relate to an aspect of the entrant's doctoral/MPhil research.
- Posters can be landscape or portrait orientation.
- Posters must be submitted in PDF or JPG format.
- It is the responsibility of competition entrants to ensure that any images used in their poster are not copyrighted.

Judges will assess the posters according to the following criteria:

First impression

- Is the poster easy to read?
- Is space used effectively within the poster?
- Does the poster present a logical flow of information?
- Is the poster overall visually attractive and engaging?

Title and content

- Is the title engaging?
- Are the aims/objectives of the research clearly stated?
- Are the methods clearly explained detail?
- How well are the results/outcomes communicated on the poster?
- Are any images, graphs or figures clear and easy to understand?

The tentative template of the posture attached below;
