

One Day Seminar
on
Entosis and Cellular Cannibalism: A Novel Cell Death Process that Occurs
by Cell-in-Cell Internalization

November 08, 2019

Cell biology is a branch of biology that studies the structure and function of the cell, which is the basic unit of life. Cell biology is concerned with the physiological properties, metabolic processes, signaling pathways, life cycle, chemical composition, and interactions of the cell with their environment.

Department of Wildlife & Ecology, University of Veterinary & Animal Sciences, Lahore, Ravi Campus, Pattoki is going to organize an advanced level seminar on “**Entosis and Cellular Cannibalism: A Novel Cell Death Process that Occurs by Cell-in-Cell Internalization**“ at Department of Wildlife & Ecology, University of Veterinary & Animal Sciences, Lahore, Ravi Campus, Pattoki.

Course Duration:	One day (Nov 08, 2019)
Course Timing:	10:00 am to 11:00 am
Venue:	Department of Wildlife & Ecology, UVAS, Ravi Campus, Pattoki
Participants:	Students and teacher working on cell biology in universities and research institutions
No. of Participants:	(N = 50)
Resource Persons:	DR SYED QASIM RAZA MS (University of Paris Diderot, France) PhD in Biochemistry, Cell and Molecular Biology (University of Paris Sud Orsay, France) Post Doctorate, INSERM, Institute of Gustave Roussy Cancer Campus, France Assistant Professor, IBBT, UVAS, Lahore, Pakistan

Organizing Committee:

Dr. Shahzad Ali (Assistant Professor)

Chief Organizer

Department of Wildlife & Ecology, University of Veterinary & Animal Sciences, Ravi Campus, Pattoki

Dr. M. Rashid (Assistant Professor)

Secretary

Department of Wildlife & Ecology, University of Veterinary & Animal Sciences, Ravi Campus, Pattoki

REGISTRATION PROCEDURE

- Collect the registration form from Department of Wildlife & Ecology, University of Veterinary & Animal Sciences, Ravi Campus, Pattoki
- Submit the duly filled registration forms to:

Mr. Attaullah

Cell: 0346-7891191
