

Event Report

TEAM The Artistry Hub, we decided to come back with another up to the mark and exciting event and luckily we got a chance to conduct One Health International Conference in collaboration with the most versatile students of CVAS Jhang, Campus. It was indeed a great honor for our team to welcome the entire respected and talented foreign faculty to our university. And we did our best.

The conference was of two days and was held on 11th November 2017.

Our multi-talented team again appeared with a new idea and new trend. We represented our CULTURE and our traditions in front of foreigners. The reason behind this was just to awake our students who are getting trapped in western culture.

We arranged a painting competition for art lovers and they presented their ideas about One Health in a beautiful manner. The lectures delivered by the guests were simply showing their extra ordinary interest and hardwork for the concept of One Health.

The mesmerizing smell of hinna stall was the land mark of the whole event. Besides this, we had arranged a full desi menu in form of delicious sarson ka saag and tasty makai ki rotti. The colorful photobooth and facepainting stall was attracting the attention of everyone. The conference ended with certificate distributions among the deservers.

It was a message for those who are getting trapped into the western culture that we are still here all along our traditions and culture.

It was indeed a remarkable event in history of UVAS!
